

M.A.R.S. SAFETY AUTOPSY

Exam Checklist:

All Senses Alert

- Eyes open to any danger
- Attentive listening for trouble or announcements
- Nose sensitive to burning or strange odors
- Cautious touch and firm grasp
- Strong legs for use in lifting instead of straining back
- Rested, focused brain

Correct Safety Gear and Use

- Eye protection with side panels
- Gloves to protect hands
- Closed shoes
- No loose clothing
- Team/FIRST ID indicating access to pit
- Wristwatch to manage time; rushing causes accidents

Proper Condition and Storage of Tools

- An organized, clean workspace
- Nothing underfoot that might trip or hinder escape
- Exit doors noted and aisles kept clear
- Clean, maintained tools and trained in their use

Knowledge

- Can identify where to go for help if safety efforts fail
- Recognizes and reports any unsafe conditions
- Refrains from dangerous horseplay

WARNING: Exam failure will result in alien probe, dissection and shameful return home!
